PROJECT MP12219-C

CORRECTED PUBLICATION

**CORRIGENDA**

***Overview***

Definition changes in project MP12219 were published on January 1, 2024. Two definitions, B64G 1/10 and B64G 1/24, published with improper informative reference tables.

This corrected publication reflects the proper definitions for B64G 1/10 and B64G 1/24.

This corrigendum notice changes the contents of the CPC Definitions but does not change the contents of the CPC Scheme or CICL. Therefore, corrections to this project necessitate a new CPC release to update the Definitions.

***Technical Details***

*In the definitions:*

- In B64G 1/10, replace the informative references table with the updated table below:

Shapes or forms adapted for gravity gradient control	B64G 1/34
--	-----------

- In B64G 1/24, replace the informative references table with the updated table below:

Attitude control by solar sailing	B64G 1/407
Tracking space vehicles	B64G 3/00
Jet propulsion plants	F02K
Navigation or navigational instruments	G01C
Control of position, course, altitude or attitude of space vehicles in general	G05D 1/00
