

Tramcars	B61D 13/00
----------	----------------------------

Informative references

Attention is drawn to the following places, which may be of interest for search:

Superstructure for passenger vehicles with more than one deck	B62D 31/04
Omnibus	B62D 47/02

B61D 1/02

General arrangements in sleeping or couchette carriages ([B61D 1/08](#) takes precedence)

Definition statement

This place covers:

Arrangement details of sleeping or couchette accommodation inside the railway vehicles. See example drawing:

References

Limiting references

This place does not cover:

Sleeping arrangement for multiple deck carriages	B61D 1/08
--	---------------------------

Informative references

Attention is drawn to the following places, which may be of interest for search:

Details of sleeping facilities	B61D 31/00
--------------------------------	----------------------------

B61D 1/04

General arrangements of seats ([B61D 1/06](#) takes precedence; seats per se [B61D 33/00](#))

References

This place does not cover:

Seat arrangement for multiple deck carriages	B61D 1/06
--	---------------------------

Informative references

Attention is drawn to the following places, which may be of interest for search:

Details of seats and accessories therefore	B61D 33/00
--	----------------------------

B61D 3/00

Wagons or vans (tank wagons [B61D 5/00](#); hopper wagons [B61D 7/00](#); tipping wagons [B61D 9/00](#); mine cars [B61D 11/00](#); vehicles specially adapted for animal transportation [B60P 3/04](#); {container traffic [B65G](#)})

Definition statement

This place covers:

Details and arrangements of railway cars for transporting goods.

Typical examples are:

- Railway wagons for carrying road vehicles.
- Low level freight wagons.
- Swivel platform for rail vehicles.
- Convertible freight cars.

Following drawing shows one example:

References

Limiting references

This place does not cover:

Tank wagons	B61D 5/00
Hopper wagons	B61D 7/00
Tipping wagons	B61D 9/00

Mine cars	B61D 11/00
-----------	----------------------------

Informative references

Attention is drawn to the following places, which may be of interest for search:

Train with lorries	B60F 1/04
Vehicles specially adapted for animal transportation	B60P 3/04
Omnibus	B62D 47/02 , B62D 47/025
Container traffic	B65G
Transferring at storage areas	B65G 63/00
Auxiliary measures taken in connection with loading/unloading	B65G 69/00

B61D 3/04

with movable floors, e.g. rotatable or floors which can be raised or lowered

Definition statement

This place covers:

The vehicle is able to raise, lower or rotate at least part of the floor, e.g. a container could be rotated by the floor from a first position in which the container is parallel to the roadway to a second position in which the container is parallel to the railway vehicle. The drawing shows an example:

Attention is drawn to the following places, which may be of interest for search:

Wagons or vans; loading platforms	B61D 3/184 , B61D 3/20 , B61D 47/00 , B61D 47/005
-----------------------------------	---

B61D 3/182

{specially adapted for heavy vehicles, e.g. public work vehicles, trucks, trailers}

Definition statement

This place covers:

Example:

A rail transport vehicle for carrying a hydraulic crawler crane.

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Articulated vehicles comprising running gear interconnected by loads	B61D 3/12
--	---------------------------

B61D 5/00

Tank wagons for carrying fluent materials

Definition statement

This place covers:

Railroad rolling stock designed for transporting liquid and gaseous commodities. This main-group further covers design and improvements of the container as also devices and methods for filling and emptying the railroad tank car.

Following drawing shows one example:

References

Attention is drawn to the following places, which may be of interest for search:

For cleaning container	B08B 9/08
Closure members for pressure vessels	F16J 13/08

B61D 7/00

Hopper cars (flat bottomed cars convertible into hoppers [B61D 3/06](#))

Definition statement

This place covers:

Railroad freight cars used to transport loose bulk commodities such as coal, ore, grain, track ballast, and the like. This main-group comprises also devices and methods, e.g. closure elements, for discharging the freight from the hopper cars.

Following drawing shows one example:

References

This place does not cover:

Flat bottomed cars convertible into hoppers	B61D 3/06
---	---------------------------

Informative references

Attention is drawn to the following places, which may be of interest for search:

Vehicle for transporting loads	B60P 1/00
--------------------------------	---------------------------

B61D 9/00

Tipping wagons

Definition statement

This place covers:

Goods wagons designed primarily for the transportation of bulk goods and can usually be tipped, dumped or shovelled.

Following drawing shows one example:

B61D 11/00

Mine cars ([B61D 5/00](#) - [B61D 9/00](#) take precedence)

Definition statement

This place covers:

Railroad wagons specially adapted to be used as mining cars.

Following drawing shows one example:

References

Limiting references

This place does not cover:

Tank wagons	B61D 5/00
Tipping wagons	B61D 9/00

B61D 13/00

Tramway vehicles

Definition statement

This place covers:

Tramways for public transport, used principally in the city.

Following drawing shows one example:

B61D 15/00

Other railway vehicles, e.g. scaffold cars; Adaptations of vehicles for use on railways (conveyor frames mounted for movement on rail tracks [B65G 41/02](#); wheeled machines used in permanent way construction or maintenance [E01B](#))

Definition statement

This place covers:

Peculiar railway vehicles that are not in [B61D 1/00](#) - [B61D 13/00](#).

Following drawings show two examples:

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Electric devices for preventing crash collisions	B60L 3/0007
Repairing trolley lines	B60M 1/28
Conveyor frames mounted for movement on rail tracks	B65G 41/02
Cranes	B66C25/50
Track building vehicles	E01B
Wheeled machines used in permanent way construction or maintenance	E01B
Dredgers	E02F 9/022

Shock testing of vehicles	G01M 17/0078 , G01M 7/08
Anti-collision systems	G08G 1/16 , B60L 3/0007

B61D 15/06

Buffer cars; Arrangements or construction of railway vehicles for protecting them in case of collisions (buffers [B61G 11/00](#))

Definition statement

This place covers:

Example:

Rail vehicle having a driver's cab provided with an energy-absorbing structure adapted to cope with a collision above the frame of the vehicle.

References

Limiting references

This place does not cover:

Buffers	B61G 11/00
---------	----------------------------

Informative references

Attention is drawn to the following places, which may be of interest for search:

For end walls	B61D 17/06
Obstruction removers	B61F 19/00

B61D 17/00

Construction details of vehicle bodies (for tank wagons [B61D 5/00](#); for hopper cars [B61D 7/00](#); body details specially adapted for tipping wagons [B61D 9/06](#); for mine cars [B61D 11/00](#))

Definition statement

This place covers:

Details of designing the structure of the vehicle body. This main-group also comprises details of interior walls, end walls, sides, floors, roofs and internal lining of the vehicle body.

Typical examples are:

- Modular double-decker passenger carriage for railway car.
- Lightweight profiles of a railway vehicle body.
- Aerodynamic drag reducing devices.
- Communication passage, e.g. of the bellow type.
- Improved vehicle insulation and method for making using same.
- Height adjustable floor of a railway vehicle.

Following drawings show two examples:

References

Limiting references

This place does not cover:

For tank wagons	B61D 5/00
For hopper cars	B61D 7/00

Body details specially adapted for tipping wagons	B61D 9/06
For mine cars	B61D 11/00

Informative references

Attention is drawn to the following places, which may be of interest for search:

Bellows for gangways	B23Q 11/0816 , B60D 5/00 , F16J 3/04
Internal lining	B60R 13/00
Underframes of railway vehicle	B61F 1/00
Vehicles in general	B62D 21/00
Superstructure for vehicles	B62D 33/04
Streamlining	B62D 35/00
Joining sheets or plates;	F16B 5/00
Sound damping	G10K 11/16

B61D 17/02

reducing air resistance by modifying contour; {Constructional features for fast vehicles sustaining sudden variations of atmospheric pressure, e.g. when crossing in tunnels}

Definition statement

This place covers:

Examples:

Rail vehicle has rail vehicle ends that are aerodynamically arranged such that rail vehicle is provided with low driving resistance.

Covering for a bogie of a rail vehicle for reducing the aerodynamic drag

Streamlined rail vehicle front end for better aerodynamics.

B61D 41/00

Indicators for reserved seats; Warning or like signs; Devices or arrangements in connection with tickets, e.g. ticket holders; Holders for cargo tickets or the like

Definition statement

This place covers:

The titles of this group are self-explanatory and does not need to be more specified.

Following drawing shows one example:

B61D 43/00

Devices for using the energy of the movements of the vehicles

Definition statement

This place covers:

All types of devices using the movement of the vehicle to provide energy.

Some examples are:

- Regenerative train brakes
- Bogies comprising flywheel and prime mover
- Axle-driven generators
- Generators in wheel set bearing

Following drawing shows one example:

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Loading/unloading devices in general	B65G 63/00 - B65G 69/00

B61D 49/00

Other details

Definition statement

This place covers:

Body details and kinds of railway vehicles that are not covered in [B61D 1/00](#) - [B61D 47/00](#).

Typical examples are:

- On-board display systems.
- Passenger information system for inside rail vehicle.
- Overhead wiring arrangement for a railway car.
- Railway swimming poolcar.
- Handgrips for use in a railway passenger vehicle.
