

B62H

CYCLE STANDS; SUPPORTS OR HOLDERS FOR PARKING OR STORING CYCLES; APPLIANCES PREVENTING OR INDICATING UNAUTHORIZED USE OR THEFT OF CYCLES; LOCKS INTEGRAL WITH CYCLES; DEVICES FOR LEARNING TO RIDE CYCLES

Definition statement

This place covers:

Devices mounted on bicycles, motorcycles or scooters for holding it in an essentially upright position, including stands and stabilizing (training) wheels.

Parking stands to which the bicycle can be locked.

Locking means specifically adapted for use with bicycles.

It is considered that most subgroup titles are self explanatory.

Special rules of classification

Unless otherwise stated, classification should be made in the most appropriate place(s), for example if a document describes a bicycle stand that can be used in two modes, e.g. with a single pivoting arm and a U-shaped stand for supporting a cycle with its wheels raised off the ground, then both groups [B62H 1/02](#) and [B62H 1/04](#) should be given.

Where applicable, additional classification should also be given in the following codes:

[B62K 2202/00](#) Motorised scooters

[B62K 2204/00](#) Adaptations for driving cycles by electric motor (for driving electrically assisted bicycles [B62M 6/00](#)).

B62H 1/00

Supports or stands forming part of or attached to cycles

Definition statement

This place covers:

Stands or stabilising mechanisms attached to two wheeled cycles. If the stabilizers are to aid holding the cycle upright when riding the cycle, means for stabilising the ride in groups [B62H 1/10](#), [B62H 1/12](#) and [B62H 1/14](#) take precedence. Also it should be noted that [B62H 7/00](#) is intended for other devices for learning to ride cycles such as dual controls.

B62H 1/10

involving means providing for a stabilised ride (training appliances or apparatus for cycling sport [A63B 69/16](#))

References

Limiting references

This place does not cover:

Training appliances or apparatus for cycling sport	A63B 69/16
--	----------------------------

Informative references

Attention is drawn to the following places, which may be of interest for search:

Automatic balancing machines with single main ground engaging wheel or coaxial wheels supporting a rider	B62K 11/007

B62H 1/12

using additional wheels

References**Limiting references**

This place does not cover:

Cycles with more than two main road wheels	B62K 5/00
--	---------------------------

B62H 1/14

using runners for riding on ice or snow (runners for carrying wheeled vehicles to facilitate travel on ice or snow [B62B 19/00](#))

References**Limiting references**

This place does not cover:

Runners for carrying wheeled vehicles to facilitate travel on ice or snow	B62B 19/00
---	----------------------------

B62H 3/00

Separate supports or holders for parking or storing cycles (cycle supports used during maintenance [B25H](#); building aspects [E04H](#))

Definition statement

This place covers:

Parking racks or stands to which the cycle may be locked.

References**Informative references**

Attention is drawn to the following places, which may be of interest for search:

Cycle supports used during maintenance e.g. workshop supports	B25H 1/0014
Cycle carriers mounted on other vehicles	B60R 9/10
Building aspects of shelters, garages or sheds	E04H 6/005
Arrangements or devices for hiring cycles	G07F 17/244 , G07F 17/0042

Special rules of classification

Additional classification has to be given in the indented codes.

B62H 5/00

Appliances preventing or indicating unauthorised use or theft of cycles; Locks integral with cycles (fittings for preventing or indicating use or theft of vehicles in general [B60R](#); general features of locks [E05B](#))

Definition statement

This place covers:

Any locks or anti theft systems or alarms mounted on or specifically adapted for use with cycles. Also includes holders for locks adapted to be attached to cycles.

Fittings for preventing or indicating use or theft of vehicles in general	B60R 25/00
General features of locks	E05B 71/00

Special rules of classification

Additional classification has to be given in the indented codes.

B62H 5/001

{Preventing theft of parts or accessories used on cycles, e.g. lamp, dynamo ([B62H 5/006](#) takes precedence; devices for attaching pumps to cycles [B62J 11/02](#))}

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Frames for saddles; Connections between saddle frames and seat pillars; Seat pillars	B62J 1/08
Panniers, saddle bags, or other containers specially adapted to be attached to cycles	B62J 9/00
Devices for attaching pumps to cycles	B62J 11/02
Frame parts shaped for attaching saddle pillars, e.g. adjustable during ride	B62K 19/36
Luggage carriers forming part of frame	B62K 19/46
Arrangements for mounting axles resiliently on cycle frame or fork	B62K 25/02

Special rules of classification

Locks for bicycle components should be classified here as well as in the specific group for the component i.e. quick release wheel locks which should also be classified in [B62K 25/02](#).

B62H 5/003

{using chains or cables (chain or cable locks per se [E05B 67/003](#); with alarm [E05B 45/005](#))}

References**Informative references**

Attention is drawn to the following places, which may be of interest for search:

Chain, cable or padlocks with alarms	E05B 45/005
Chain or cable locks	E05B 67/003

B62H 5/08

preventing the drive (by acting on powered drive [B62M](#))

References**Informative references**

Attention is drawn to the following places, which may be of interest for search:

Rider propulsion of wheeled vehicles or sledges; powered propulsion of sledges or single-track cycles; transmissions specially adapted for such vehicles	B62M
