

E04F

FINISHING WORK ON BUILDINGS, e.g. STAIRS, FLOORS (windows, doors [E06B](#))

Definition statement

This place covers:

Finishing work on buildings, like:

- sunshades, Florentine blinds, awnings, outside screens ([E04F 10/00](#));
- fixed and moveable stairways, ramps, balustrades, handrails ([E04F 11/00](#));
- coverings or linings for walls or ceilings ([E04F 13/00](#));
- floor coverings, parquet, sectional false floors ([E04F 15/00](#));
- vertical ducts, chimneys, air ducts, light shafts, lift shafts, utility lines channels, disposal chutes, channels for drainage ([E04F 17/00](#));
- borders, finishing strips, built-in cup-boards, niches ([E04F 19/00](#));
- implements for finishing work on buildings, e.g. for mounting doors or windows, for mounting plinths, for plastering, for finishing joints, for setting wall or ceiling slabs, for laying floor coverings ([E04F 21/00](#));

E04F 10/00

Sunshades, {e.g. Florentine blinds or jalousies; Outside screens ([E06B 9/26](#) takes precedence)}; Awnings {or baldachins (for caravans [B60P 3/343](#))}; (trailer awnings [E04H 15/08](#); for tents [E04H 15/58](#))

Definition statement

This place covers:

Sunshades, e.g. Florentine blinds or jalousies;

Screens on the outside of buildings which provide a shading function;

Outside shading elements mounted to the building;

Awnings; Baldachins

Relationships with other classification places

This subgroup contains outdoor screens, which are designed withstand outside environmental changes, like wind, rain and snow. Screens mounted on the inner side of a window or door, so called indoor screens are classified in [E06B 9/24](#). Operating means for indoor and outdoor screens are classified in [E06B 9/68](#). Venetian-type lamellar outdoor and indoor screens are classified in [E06B 9/26](#). Free-standing screens which are not attached to the exterior of a building are classified in [E04H 15/00](#). Umbrellas in [A45B](#).

E04F 13/0812

{fixed by means of spring action}

Definition statement

This place covers:

Separate fastening elements for coverings composed of a plurality of similar covering elements, with load-supporting elongated furring elements between wall and covering elements, and with additional fastening elements between furring elements and covering elements, (any of the elements being) fixed by means of spring action, e.g. effecting a clamping, the spring element being integral to or separate

from the other elements. e.g. : (spring 8)

Synonyms and Keywords

In patent documents, the following words/expressions are often used with the meaning indicated:

" snap action"	"spring action"
----------------	-----------------

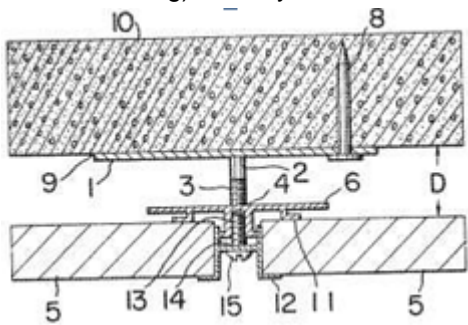

E04F 13/0814

{fixed by means of clamping action}

Definition statement

This place covers:

Separate fastening elements for coverings composed of a plurality of similar covering elements, with load-supporting elongated furring elements between wall and covering elements, and with additional fastening elements between furring elements and covering elements, (any of the elements being) fixed by means of clamping action. e.g. : (Clamping effected by elements 12-15)

Synonyms and Keywords

In patent documents, the following words/expressions are often used with the meaning indicated:

" holding tight "	" clamping action "
-------------------	---------------------

E04F 13/0833

{not adjustable ([E04F 13/0857](#) takes precedence)}

Definition statement

This place covers:

Separate fastening elements for coverings composed of a plurality of similar covering elements, without load- supporting elongated furring elements between wall and covering elements, the fastening element being not adjustable, e.g. no adjustment or compensation means for tolerances, inaccuracy, or by means of screws, teeth, wedges.
