CPC COOPERATIVE PATENT CLASSIFICATION

B PERFORMING OPERATIONS; TRANSPORTING

(NOTES omitted)

SHAPING

B26D

B26 HAND CUTTING TOOLS; CUTTING; SEVERING

CUTTING; DETAILS COMMON TO MACHINES FOR PERFORATING, PUNCHING, CUTTING-OUT, STAMPING-OUT OR SEVERING (soil-working A01B; for growing crops or plants A01D, A01G; for fodder or straw A01F; for bulk butter A01J; for dough A21C; slaughtering A22B; for tobacco, cigars or cigarettes A24; marking-out, perforating or making buttonholes A41H 25/00; manufacturing footwear A43D; brushmaking A46D; surgery A61B; disintegrating, mincing or shredding in general B02C; cutting wire, making pins or nails B21F, B21G; of the kind used formetal B23; cutting by abrasive fluid jets B24C 5/02; hand-held cutting tools B26B; perforating, cutting-out, stamping-out or punching, or severing by means other than cutting B26F; for wood B27; for stone B28D; working of plastics or substances in a plastic state B29; making boxes, cartons, envelopes or bags, of paper or similarly worked materials, e.g. metal foil, B31B; article or web delivery apparatus incorporating cutting or line-perforating devices B65H 35/00; for leather or upholstery B68; C14B; for glass C03B; making matches C06F; for peat C10F; for sugar C13B 45/00; for textile materials D06H; civil engineering, building, mining, see Section E; for light guides G02B 6/25; cutting processed photographic material G03D 15/04)

NOTES

- 1. This subclass covers:
 - cutting non-metallic sheet material and metal foil in general;
 - cutting other forms of non-metallic material not otherwise provided for;
 - features specific to machines for cutting, perforating, punching, cutting-out, stamping-out and severing by means other
 than cutting, which relate to a requirement or problem of a nature which is not peculiar to a machine for these purposes,
 that is, details of or arrangements for operating or controlling such machines, although the realisation of such features may
 differ according to the kind of machine concerned. This subclass <u>covers</u> such features in general even if the feature in any
 particular case is to some extent peculiar to, or is claimed only for, a machine designed for perforating, punching, cuttingout, stamping-out, or for severing other than by cutting.
- 2. If the details or arrangements have no essential features specific to cutting, perforating, punching, cutting-out, stamping-out or severing machines, the more general classes, e.g. <u>F16</u>, take precedence.
- 3. In this subclass, in groups B26D 5/00 and B26D 7/00, the following term is used with the meaning indicated:
 - "cutting" includes cutting-out, stamping-out, punching, perforating, and severing by means other than cutting.

WARNING

In this subclass non-limiting references (in the sense of paragraph 39 of the Guide to the IPC) may still be displayed in the scheme.

1/00	Cutting through work characterised by the nature or movement of the cutting member {or particular	2001/0046 • • {rotating continuously about an axis perpendicular to the edge}	•	
	materials not otherwise provided for}; Apparatus or machines therefor; Cutting members therefor	2001/0053 • { having a special cutting edge section or bl section}	cial cutting edge section or blade

Cutting beds { (B26D 7/018 takes precedence; supporting beds for severing by means of a fluid jet B26F 3/008)} e 2007/202 . { Rollers or cylinders being pivoted during operation} 7/204 . { Anvil rollers} 1007/208 . { having a cleaning device} 7/22 . Safety devices specially adapted for cutting
2007/00 2007/00 2007/00 2007/00 2007/00 2007/00 2007/00 2007/00 2007/00 2007/00 2007/00 2007/00 2007/00 2007/00	knives or dies B26F) • {Means for guiding the cutter (for hand kni B26B 29/06; for band-knives B26D 1/54)} • {Details, accessories or auxiliary or special operations not otherwise provided for} • {Trays, reservoirs for waste, chips or cut products} • {Sterilizing} • {floating a web during slitting} • {the cutter being a so-called "iris cutter"; • {cutters, e.g. guillotines, used in a label r printer} • {Rotating a pile of sheets in the plane of sheets} • {Rounding off the end of self adhesive la tapes} • {Trimming and removing web edges} • {So-called "winder slitters"} • {Cutting on three sides, e.g. trilateral trin for use on a desktop} • {for use on a desktop} • Means for holding or positioning work • {by clamping claws, e.g. in high speed sl food products} • {the work being tubes, rods or logs}	ives 7/088 . { by cleaning or lubricating (sterilizing B26D 1/00)} 7/10 . by heating (with Laser B23K 26/00; severing by heating B26F) 7/12 . by sharpening the cutting member 7/14 . by tensioning the work 7/18 . Means for removing cut-out material or waste 2007/1809 . { by stripping fingers} 7/1818 . { by pushing out} 7/1827 . { by tearing} 7/1836 . { by pulling out} maker or 7/1845 . { by air under pressure} the 7/1863 { by suction} 2007/1872 . { using breakaway pins} abels on 2007/1881 . { using countertools} 2007/189 . { Mounting blanking, stripping and break-out tools} 7/20 . Cutting beds { (B26D 7/018 takes precedence; supporting beds for severing by means of a fluid jet B26F 3/008)} e 2007/202 . { Rollers or cylinders being pivoted during operation} 7/204 . { Anvil rollers} 1007/208 . { having a cleaning device} 7/22 . Safety devices specially adapted for cutting

CPC - 2025.08 4

7/24	 arranged to disable the operating means for the cutting member
7/26	• Means for mounting or adjusting the cutting
	member; Means for adjusting the stroke of the
	cutting member
2007/2607	• • {for mounting die cutters}
7/2614	• • {Means for mounting the cutting member}
7/2621	• • • {for circular cutters}
7/2628	• • {Means for adjusting the position of the cutting
7/2/25	member}
7/2635	• • • {for circular cutters}
7/2642	{for slotting cutters}
7/265	• • • {Journals, bearings or supports for positioning rollers or cylinders relatively to each other}
2007/2657	• • {Auxiliary carriages for moving the tool holders}
2007/2664	• • {for radial adjustment}
2007/2671	• • {for cutters moving in a planetary motion on their
	support, e.g. so-called "Ferris Wheels"}
2007/2678	• • {for cutting pens mounting in a cutting plotter}
2007/2685	• • {flexible mounting means}
2007/2692	• • {the rollers or cylinders being mounted skewed}
7/27	 Means for performing other operations combined with cutting (B26D 9/00 takes precedence)
7/28	• • for counting the number of cuts or measuring cut lenghts (B26D 5/24, B26D 5/40 take precedence)
7/30	for weighing cut product
7/32	for conveying or stacking cut product (means for
	removing cut-out material or waste <u>B26D 7/18</u>)
2007/322	• • • {the cut products being sheets, e.g. sheets of paper}
7/325	• • • {stacking the cut product individually separated by separator elements}
2007/327	• • • {the cut products being slices of bread}
7/34	for applying a coating, such as butter, to cut
	product
9/00	Cutting apparatus combined with punching or
	perforating apparatus or with dissimilar cutting
	apparatus
11/00	Combinations of several similar cutting apparatus
2011/005	• {in combination with different kind of cutters, e.g.
2011/000	two serial slitters in combination with a transversal
	cutter}
2210/00	Machines or methods used for cutting special
	materials
2210/02	• for cutting food products, e.g. food slicers
2210/04	controlling the volume by pressing the food
	product, e.g. meat to a predetermined shape
	before cutting
2210/06	• for bread, e.g. bread slicing machines for use in a
2210/00	retail store
2210/08	. Idle cutting
2210/11	• for cutting web rolls
