# **CPC** COOPERATIVE PATENT CLASSIFICATION

# B PERFORMING OPERATIONS; TRANSPORTING (NOTES omitted)

### **PRINTING**

## **B41 PRINTING; LINING MACHINES; TYPEWRITERS; STAMPS**

#### B41B MACHINES OR ACCESSORIES FOR MAKING, SETTING, OR DISTRIBUTING TYPE; TYPE; PHOTOGRAPHIC OR PHOTOELECTRIC COMPOSING DEVICES (photographic devices in general CO2)

(photographic devices in general  $\underline{G03}$ )

### WARNING

In this subclass non-limiting references (in the sense of paragraph 39 of the Guide to the IPC) may still be displayed in the scheme.

1/00	Elements or appliances for hand composition; Chases, quoins, or galleys	7/00	Kinds or types of apparatus for mechanical composition in which the type is cast or moulded
1/02	• Printing letters; Type		from matrices
1/025	• { for languages in which the latin alphabet is not used }	7/02	• operating with fixed combinations of matrices (details <u>B41B 9/00</u> )
1/04	• Quadrats or quads: Spaces or other justifiers	7/04	for casting individual characters or spaces, e.g.
1/06	• for special purposes		type casting machines
1/08	• • for inserting latest news	7/06	• • for composing, justifying and casting complete
1/10	for inserting advertisements		lines of matrices, e.g. "monoline" machines
1/12	• for setting musical notations	7/08	<ul> <li>operating with separate matrices for individual</li> </ul>
1/14	• Composing rules, e.g. of brass		characters or spaces which are selected and
1/16	. Reglets		assembled (details <u>B41B 11/00</u> )
1/18	. Chases	7/10	• in which a line is composed of matrices and in
1/20	• Quoins or other binding means		which single types or spaces are cast, e.g. stringer
1/22	• Composing tables; Type cases; Storage cabinets;	7/10	type
	Washing or cleaning devices therefor	7/12	in which a justified line is composed of matrices
1/24	Washing or cleaning devices	7/14	and a type line is cast in one piece •••• the matrices being composed by hand
1/26	• Composing or setting sticks		- · · ·
1/28	. Galleys	7/16	the lines of matrices being composed and justified by machine operation, e.g. line type casting machines, "intertype" machines
Machines of	r other mechanical apparatus for composing	7/18	• • • • the matrices being guided by wires, e.g.
3/00	Apparatus for mechanical composition using	//10	"typograph" machines
5/00	prefabricated type, i.e. without casting equipment		typographi maenines
3/02	• Mechanical composing machines using single types	9/00	Details of, or accessories for, machines for
5/02	or logotypes and having slide magazines therefor,		mechanical composition using fixed combinations
	e.g. flat, cylindrical, radial, single magazines	a (a <b>a</b>	of matrices from which type is cast or moulded
3/04	• Means for distributing type	9/02	Combinations of matrices
3/06	• Justifying means	9/04	• Carriers for combinations of matrices, e.g. blocks, cylinders, wheels, bars
5/00	<b>Devices for making type or lines</b> (for mechanical composition <u>B41B 7/00</u> , <u>B41B 9/00</u> , <u>B41B 11/00</u> )	9/06	<ul> <li>Mechanisms for effecting relative movements of matrix carriers and moulds for character or space</li> </ul>
5/02	• Matrices		selection
5/04	Casting devices	9/08	• Moulding or casting devices
5/06	mechanically operated	9/10	Moulds
5/08	• Tools or auxiliaries	9/12	. Justifying devices
5/10	• • for polishing or finishing type (polishing in	9/14	• • Supply devices for molten metal
	general <u>B24B</u> )	9/16	• Devices for handling type after casting
5/12	• for making type in the form of lines, e.g. by	9/18	Ejector mechanisms
	drawing or casting	9/20	Trimming devices
5/14	for cutting spaces		

11/00	Details of, or accessories for, machines for mechanical composition using matrices for individual characters which are selected and assembled for type casting or moulding	
11/02	• Matrices	
11/04	• Space bands	
11/06	Storage devices for matrices or space bands	
11/08	Magazines for matrices	
11/10	for composing by hand	
11/12	• • • Attachment of magazines to machines; Magazine-selection or magazine-shift mechanisms (controlling selection or shifting <u>B41B 27/42</u> )	
11/14	with escapement devices	
11/16	. Boxes for space bands; Escapements or guides for releasing space bands	<u>Pł</u>
11/18	<ul> <li>Devices or arrangements for assembling matrices and space bands (control devices therefor <u>B41B 27/44</u>)</li> </ul>	
11/20	. Assembler guide channels	
11/22	• Assembler cover plates or framework	
11/24	• Belt conveyors co-operating with assembler guides	
11/26	Devices for feeding or guiding space bands into association with matrices	
11/28	• Star wheels or other stacking devices for matrices and space bands; Guides associated therewith	
11/30	<ul> <li>Assembler elevators or associated mechanisms, e.g. braking devices, retaining pawls, line resistants, delivery slides</li> </ul>	
11/32	Transfer channels or line-delivery carriages	
11/34	First elevators or associated mechanisms	
11/36	• • for presenting matrices or space bands directly to moulds	
11/38	• Devices for aligning or clamping lines of matrices and space bands	
11/40	. Jaw clamps; Operating devices therefor	
11/42	• • • for quadding and centering	
11/44	• • for justifying	
11/46 11/48	<ul> <li>Aligning devices</li> <li>Cleaning devices for aligning jaws (cleaning matrices <u>B41B 11/96</u>)</li> </ul>	
11/50	• Vice frames; Devices for releasing or locking	
11/52	<ul> <li>Moulding or casting devices or associated</li> </ul>	
11/52	mechanisms	
11/54	• • Moulds; Liners therefor	
11/56	Mould wheels; Slides or driving gear therefor	
11/58	• • • • with locking wedges	
11/60	adjustable or removable	
11/62	with interchangeable moulds	
11/64	with a series of moulds and mechanism for selecting individual moulds	
11/66	mounted on reciprocable carriages	
11/68	• • with provision for adjusting length or width of slot; with a plurality of slots	
11/70	• • for casting type-bars of special form, e.g. with projections	
11/72	• Devices for trimming type-bars; Cleaning devices for trimming knives; Ejectors for type-bars	
11/74	. Devices for supplying molten metal	
11/76	• • Pots (melting pots for casting stereotype plates <u>B41D 3/20</u> )	
11/78	movable towards and away from mould	

11/80	with stirrers or means for removing dross
11/82	associated with mechanisms for introducing metal in solid form
11/84	• • • Throats or mouthpieces; Wipers for mouthpieces
11/86	Heaters for pots; Temperature-control     devices
11/88	• • • Pumps; Stop-motions or safety devices therefor
11/90	<ul> <li>Arrangements or devices for distributing matrices or space bands after casting or moulding</li> </ul>
11/92	Second elevators
11/92	Screw conveyors
11/94	<ul><li>Devices for cooling or cleaning matrices</li></ul>
<u>Photographi</u>	c or photoelectronic composing devices
13/00	Equipment specially adapted for photographing
	mounted characters or the like, e.g.
	advertisements, lines
13/02	• the characters being composed or mounted by hand, and photographed simultaneously
13/04	• • with means for justifying
13/06	by elastic or extensible type-line carriers
13/08	by optical line correction
13/10	• the characters being progressively photographed one by one
15/00	Photographic composing machines with movable
	character carriers for composing lines of
	characters prior to photography
15/02	• with means for photographing complete lines
15/04	• • and with carriers for individual characters
15/06	• and with carriers for complete sets of characters, e.g. slidable elongated members, rotary wheels
15/08	• with means for photographing composed characters in succession
15/10	• Details
15/12	. Character carriers; Cleaning devices therefor
15/14	with a single character, or with combinations of different styles of a single character
15/16	with combinations of different characters
15/18	• • with parts of characters for building up complex characters, e.g. oriental characters
15/20	. Devices for handling or storing character carriers
15/22	Magazines
15/24	• • • for justifying purposes
15/26	• • • for repeating a character
15/28	• • Photographic devices (in general <u>G03</u> )
15/30	Composing cameras
15/32	Film-handling mechanisms
15/34	Adjusting enlargement or register; Correcting exposure time
17/00	Photographic composing machines having fixed or movable character carriers and without means for
	composing lines prior to photography
17/02	<ul> <li>with manually-adjustable character carriers to enable characters to be photographed in succession</li> </ul>
17/04	• with a carrier for all characters in at least one fount
17/06	• • with an adjustable carrier
17/08	• • with a fixed carrier
17/10	• • with a continuously-movable carrier
17/12	• • with means for moving the optical path for
17/14	photographing characters, e.g. intermittently
17/14	• • • continuously

17/16	• • with means for moving the film in its plane for
	photographing characters in succession
17/18	• Details
17/20	. Character carriers; Cleaning devices therefor
17/22	with a single character; with a single character in more than one style
17/24	• • • with all characters
17/26	• • • on belts
17/28	on polygonal rods
17/30	••••••••••••••••••••••••••••••••••••••
17/32	on a flat disc
17/34	on a cylinder
17/36	• • with selection indicators
17/38	• • • with means for indicating the width
17/40	in caliper form
17/42	• • • • in coded form
19/00	Photoelectronic composing machines
19/01	<ul> <li>having electron-beam tubes producing an image of</li> </ul>
19701	at least one character which is photographed
19/02	• the characters appearing on the screen in
	succession
19/04	at the same place
19/06	at different predetermined places
19/08	with combinations of characters appearing on the
	screen at the same time
19/10	in unbroken lines or columns
19/12	in broken lines or columns
19/14	and presenting a text of more than one line
19/16	Character carriers associated with electron-beam
	tubes
21/00	Common details of photographic composing
21/00	Common details of photographic composing machines of the kinds covered in groups
	machines of the kinds covered in groups <u>B41B 17/00</u> and <u>B41B 19/00</u>
21/02	<ul> <li>machines of the kinds covered in groups</li> <li><u>B41B 17/00</u> and <u>B41B 19/00</u></li> <li>Shutters in optical systems (in general <u>G03B</u>)</li> </ul>

CPC - 2025.05

21/40 21/42 21/44	<ul> <li>for line spacing</li> <li>for subscript or superscript notation</li> <li>adjustable for enlarging purposes</li> </ul>
23/00	Auxiliary devices for modifying, mixing or correcting text or layout in connection with photographic or photoelectronic composing
23/02	• for mixing by line-by-line projection of parts of texts from a number of films on to another
23/04	. for facilitating hand correction of texts
23/06	• for correcting texts by removing incorrect lines from one film and splicing-in corrected lines from another film

#### <u>Marking record carriers used for controlling composing</u> <u>machines;</u> <u>Control, indicating, or safety devices or systems for</u> <u>composing machines of various kinds or types</u>

25/00	Apparatus specially adapted for preparation of record carriers for controlling composing
	machines (for casting individual characters or spaces,
	e.g. in type casting machines <u>B41B 7/04;</u> methods for
	marking or reproducing record carriers having digital
	data thereon in general G06K 1/00)
25/10	<ul> <li>incorporating devices for line justification, e.g. counting and indicating devices for length of line</li> </ul>
25/12	comprising elements which circulate from and to magazines
25/14	• • operating without space bands
25/16	• • using a binary code for the width of the matrices
25/18	<ul> <li>combined with type-setting machines</li> </ul>
25/20	Auxiliary devices; Devices serving special purposes
25/22	• • for indicating length of line
25/24	• • for error correction
25/26	for changing the fount of type
27/00	Control, indicating, or safety devices or systems
	for composing machines of various kinds or types
	(computers in general <u>G06F</u> )
27/02	Systems for controlling all operations
27/04	• • Keyboards
27/06	operable by input of recorded or stored information, e.g. on punched tapes
27/08	from several sources
27/10	• with direct control of all operations by input of recorded or stored information
27/12	• • • on tapes
27/14	• • • on punched tapes
27/16	• • • on magnetic tapes
27/18	• • from memory devices
27/20	from electromagnetic devices, e.g. memory matrices
27/22	from several sources
27/24	• • of several associated machines
27/26	• with means for temporarily arresting input of recorded or stored information to introduce time delays
27/28	• Control, indicating, or safety devices for individual operations or machine elements (in devices for supplying molten metal <u>B41B 11/86</u> , <u>B41B 11/88</u> ; for light sources <u>B41B 21/08</u> )
27/30	• for arresting or varying speed of one operation in response to failure or variation in speed of another operation
27/32	for line-justification operations

3

27/34	without the use of space bands
27/36	using electronic devices
27/38	for measuring length of composed lines; for
	reading composed characters
27/40	. for proof-printing operations
27/41	• Printing mechanisms coupled to typographical
	composing machines
27/42	• • for controlling selection or shifting of matrix
	magazines
27/44	for controlling assembly of matrices and space
	bands
27/46	for controlling insertion of space bands (for line
	justification <u>B41B 27/32</u> )
27/48	for deleting errors or inserting corrections (means
	for cancelling or correcting errors in typewriters
	or selective printing mechanisms <u>B41J 29/26</u> )
27/50	operated by coupled machines

27/50 • • operated by coupled machines
