CPC  COOPERATIVE PATENT CLASSIFICATION

F  MECHANICAL ENGINEERING; LIGHTING; HEATING; WEAPONS; BLASTING
(NOTE omitted)

LIGHTING; HEATING

F28  HEAT EXCHANGE IN GENERAL
(NOTES omitted)

F28B  STEAM OR VAPOUR CONDENSERS (condensation of vapours B01D 5/00; steam engine plants having condensers F01K; liquefaction of gases F25J; details of heat-exchange and heat-transfer arrangements of general application F28F)

WARNING
In this subclass non-limiting references (in the sense of paragraph 39 of the Guide to the IPC) may still be displayed in the scheme.

1/00  Condensers in which the steam or vapour is separate from the cooling medium by walls, e.g. surface condenser

1/02  . using water or other liquid as the cooling medium
1/04  . employing moving walls
1/06  . using air or other gas as the cooling medium

NOTE
This group covers also air cooled heat exchangers for which the use as condenser is not explicitly specified, but the configuration is similar to air cooled condensers, e.g. dry cooling towers

2001/065  . . [with secondary condenser, e.g. reflux condenser or dephlegmator]
1/08  . . employing moving walls

3/00  Condensers in which the steam or vapour comes into direct contact with the cooling medium

3/02  . by providing a flowing coating of cooling liquid on the condensing surface
3/04  . by injecting cooling liquid into the steam or vapour (F28B 3/08 takes precedence)
3/06  . by injecting the steam or vapour into the cooling liquid (F28B 3/08 takes precedence)
3/08  . with rotatable members

5/00  Condensers employing a combination of the methods covered by main groups F28B 1/00 and F28B 3/00; Other condensers

7/00  Combinations of two or more condensers, e.g. provision of reserve condenser

9/00  Auxiliary systems, arrangements, or devices
9/005  . [for protection against freezing]
9/02  . for feeding steam or vapour to condensers
9/04  . for feeding, collecting, and storing cooling water or other cooling liquid
9/06  . . with provision for re-cooling the cooling water or other cooling liquid
9/08  . for collecting and removing condensate
