

CPC Reclassification Working Lists for CPC NO

Roberto Iasevoli

EPO Head Classification Knowledge Management

F16G5/14

with reinforcement bonded by the plastic net

Background

- Following the finalization of a CPC Revision project (RP in the CEF), USPTO & EPO undertake reclassification
 - prior to publication, in so-called USPTO style of revision
 - after the publication, in so-called EPO style of revision
 - in such case, Warnings are added to signal “Reclassification in progress”

Background (cont'd)

- All of the above applies to “original” CPC allocations only
 - including family members
 - including NPL (XP)
 - NPL are only reclassified by EPO since not part of CPCDB
- A specific solution is needed for CPCNO allocations

EPOQUE preparation

- A “private” EPOQUE preparation is being prepared, for usage in EPOQUE(.net), which generates the lists of national publications carrying CPCNO allocations
- Details are given in the separate leaflet / shown in demo
 - input:
 - country code (*once*)
 - symbol(s)
 - path of the output file (*once*)
 - ...
 - output:
 - a CSV file, easily importable into Excel, Calc etc.

Feedback and wish-list

- Your input is expected ...

Thank you!
