

State of play of the CPC Implementation at INPI/BR and delivery of the CPC data

Catia Valdman

Head of the Telecommunications Division

DIRPA / INPI

Geneva, February 19th, 2019

Summary

- Classification/Search
- CPC Training
- CPC Implementation
- CPC Data Exchange

- The goal is all areas classifying in CPC. From the 20 areas, just three did not receive any training in CPC: pharmacy, microorganism and genetics;
- All our first file documents are being classified in CPC, utility models and patent publications;
- ISA/IPEA filings are also being classified in CPC;
- We use classification for search in Espacenet and always when available in other websites;
- We don't have any quality assurance process nowadays.

CPC Training

Year	Division	Area	Date	Local
2013	DIPAT XIII	Civil Engineering	24/06/2013-05/07/2013	The Hague
	DIPAT XVIII	Mechanics	09/10/2013-18/10/2013	The Hague
	DIPAT XX	Prostheses and filters		
2014	DIPAT X	Agrochemicals	19/03/2014-28/03/2014	Munich
	DIPAT V	Polymers		
	DIPAT VIII	Cosmetics		
	DIPAT XVI	Furniture	26/05/2014-04/06/2014	The Hague
	DIPAT XI	Electronics		
	DIPAT XVII	Agriculture	06/10/2014-15/10/2014	The Hague
	DIPAT XV	Leagues		
DIPAT XIV	Telecommunication			
2015	DIPAT XIX	Packing	02/03/2015-13/03/2015	The Hague
	DIPAT IV	Petroleum	22/06/2015-03/07/2015	The Hague
2016	DIPAT VI	Inorganic chemistry	Dec/2016 - Jan/2017	WebEx
2018	DIPAT I	Textile	07/05/2018-11/05/2018	INPI
	DIPAT XII	Electricity	10/05/2018-18/05/2018	
	DIPAT XII	Physics		
	DIPAT IX	Molecular biology	14/05/2018-18/05/2018	
2019	DIPAT VII	Microorganism and genetics	?	?
	DIPAT II	Pharmacy	?	?
	DIPAT III	Pharmacy	?	?

- Microorganism and genetics: C12N, C12Q and G16B (new)
- Pharmacies: A61K9, A61K31, A61K47 and A61K41
- Preferable kind of FST training for the three remaining areas:
 1. Receive experts in Brazil to train all examiners;
 2. WebEx training to all examiners;
 3. Send two experts to receive in loco training;
- Second round of FST to all divisions – WebEx training
 - Paper, D21 (DIPAT I)
 - Equipment related to Inorganic Chemistry, B01D/F/L (DIPAT IV)
 - Polymers, C08 (DIPAT V)

CPC Implementation

- Greatest benefit is the opportunity of experts training specific in classification. It raised classification importance in general in the Office;
- Challenges at the beginning were in IT;
- Challenge nowadays is make regular the reclassification process due a new CPC version;
- CPC is updated in our system four times an year as soon as a new CPC is available, no issues;
- We don't translate CPC into Portuguese.

CPC Data Exchange

- We exchange CPC data for the front file to the EPO once per week, together with bibliographic data;
- For the back file, a pdf file is available with reclassification information in the FTP area;
- We don't exchange CPC data from the EPO or the USPTO;
