## List of additional Combination Sets which can be used for search only (May 2019)

The following table summarises the technical areas where allocation of specific Combination Sets (C-Sets) was authorised until April 2012.

These collections can be used for searching documents classified before April 2012.

C-Sets IDs are assigned to groups that share the same specific C-Sets rules.

The use of C-Sets with specific C-Sets IDs as shown in this table is explained in the definitions of C08K, C08L, C09D and C09J, version August 2019.

|   | Subclass | C-Sets ID | Base symbols | Subsequent symbol(s) |
