A61Q SPECIFIC USE OF COSMETICS OR SIMILAR TOILETRY PREPARATIONS

NOTES

1. This subclass is for secondary classification in the sense of paragraph 107bis of the Guide to the IPC. Therefore, the classification symbols of this subclass are not listed first when assigned to patent documents. Secondary classification symbols may be assigned for either invention information or additional information, as appropriate.
2. This subclass covers the use of cosmetics or similar toiletry preparations already classified as such in main group [A61K 8/00](#), in subclasses [C11D](#) or [C12N](#), or in classes [C01](#), [C07](#) or [C08](#).
3. When classifying in this subclass, classification is also made in subclass [A61P](#) if the preparation is stated to have therapeutic activity.
4. Attention is drawn to cases where the subject of the invention concerns only the specific use of cosmetics or toiletry preparations, and the chemical structure, compound, mixture or composition of this subject of the invention is known. In such cases, classification is made in main group [A61K 8/00](#) or in subclass [C11D](#), and also in subclass [A61Q](#) as invention information. In addition, if the chemical structure, compound, mixture or composition or any individual ingredient of a mixture or composition is considered to represent information of interest for search, it may also be classified as additional information.

WARNING

In this subclass non-limiting references (in the sense of paragraph 39 of the Guide to the IPC) may still be displayed in the scheme.
