1. This subclass does not cover peptides or proteins of unknown constitution, which are covered by subclass [C07K](#).
2. Attention is drawn to Note (3) after class [C07](#), which defines the last place priority rule applied in the range of subclasses [C07C](#) - [C07K](#) and within these subclasses.
3. Therapeutic activity of compounds is further classified in subclass [A61P](#).

**WARNING**

In this subclass non-limiting references (in the sense of paragraph 39 of the Guide to the IPC) may still be displayed in the scheme.
