Where to find information about CPC?

Patent Information News

- EPO adds Japanese legal status data to its databases

The acquisition by the EPO of Japanese legal status data is big news. It may not sound that exciting, but for some users it is sensational, and marks the achievement of a goal that has been on the priority list for over twenty years. It is the result of many years of intensive co-operation between the Japan Patent Office (JPO) and the EPO.
Where to find information about CPC?
